

MJK Latvia LTD

Quality bedding produkts

The quality of the different types of animals

About us

- Since 2011 Sia MJK Latvia has been in business and we focus on quality bedding products to all kinds of animals. Our goal is to provide the absolute highest quality of wood shavings to our customers.
- We supply private farms and dealers all over the world. Our plant is strategically located to minimize shipping and raw material costs, thus enabling us to offer our customers the best value for their money.
- We are very proud of our product and with an excellent quality wood shavings and service we know that our customers are satisfied.

Big

Big shavings can be used widely but is especially suitable for horses and poultry. Can also be used as deep bedding for cattle. Also suitable for mink.

Big shavings is made of carefully selected white wood shavings of good quality which have been heat treated. Shavings contain no toxins or foreign bodies. Bedding material is screened, and special technology dedusted. The shavings are pressed in 25 kg 550 litres bales and on one way pallet wrapped 21 bale with foil. Litter is used spruce and pine moisture of 8-18%.

Medium

Medium shavings is especially used for pigs both in the stys as well as in loose housing systems as the shavings are approved for use in SPF herds(ahealth status of the herd).

Medium shavings is made of carefully selected white wood shavings of good quality which have been heat treated. Shavings contain no toxins or foreign bodies.
